## Instructor Led Courses

### Certified ScrumMaster Training (Scrum Alliance CSM)

Following this 2 day course, participants will be well versed in the principles and theory of Scrum, as well as possess a wide range of tools to help Scrum teams perform at their best throughout a project lifecycle. The course is highly interactive, combining short lectures with a wide range of hands-on series of exercises and simulations. This course is excellent for all software team members involved in Agile processes and Scrum.

### Certified Product Owner Training (Scrum Alliance CSPO)

Strong product ownership is key to all successful Agile projects. In this 2 day course learn how to create and manage a backlog as well as write stories with clear acceptance criteria. Real world organizational challenges will be discussed, such as managing distributed teams, managing large or multiple projects, Sprint and release planning, reporting and metrics.

### PMI Agile Certified Practitioner

This 3 day workshop combines the core fundamentals of the CSM course with additional Agile topics like eXtreme Programming (XP), Kanban and Lean Software Development. It prepares participants for the PMI ACP Exam and satisfies PMI's Education Requirement for the ACP certification. It also satisfies the Scrum Alliance course requirement for CSM certification.

## On-Demand Training

CollabNet's web-based Agile e-learning series delivers the essentials that Agile teams need to get up and running, and to stay on top of the latest thinking in Agile development practices.

## Agile Consulting Services

Whether an organization's journey to Agile Transformation or Enterprise Cloud Development starts at the workgroup, departmental or enterprise scale, CollabNet delivers consulting services worldwide to ensure success. CollabNet's consulting services can be customized to a client's specific needs. For many organizations, an agile assessment is the best place to start. For more information on our consulting services and agile assessment, contact [scrumtraining@collab.net](mailto:scrumtraining@collab.net).

## Agile Implementation Services

CollabNet implementation services help to accelerate the deployment and integration of our tools within your development environment and are appropriate for clients of any size or maturity.

## About CollabNet

CollabNet is an Industry Leading Registered Education Provider (REP) for the Scrum Alliance and the Project Management Institute.

Contact [scrumtraining@collab.net](mailto:scrumtraining@collab.net) for more information.

### About CollabNet

CollabNet is a leading provider of Enterprise Cloud Development and Agile ALM products and services for software-driven organizations. With more than 10,000 global customers, the company provides a suite of platforms and services to address three major trends disrupting the software industry: Agile, DevOps and hybrid cloud development. Its CloudForge® development-Platform-as-a-Service (dPaaS) enables cloud development through a flexible platform that is team friendly, enterprise ready and integrated to support leading third party tools. The CollabNet TeamForge® ALM, ScrumWorks® Pro project management and SubversionEdge source code management platforms can be deployed separately or together, in the cloud or on-premise. CollabNet complements its technical offerings with industry leading consulting and training services for Agile and cloud development transformations. Many CollabNet customers improve productivity by as much as 70 percent, while reducing costs by 80 percent.
